'Pro' REBO wall

REBO'S MISSION

THE REBOLUTION

The New York Times has called wall practice the **'New Social Distancing Workout'**.

Many of the greats from Novak Djokovic to David Beckham, Roger Federer, Serena Williams and Andy Murray have said how important a practice wall has been for them.

Whether you want to play, practice and keep fit at home, at your local club or school, in a park or on your yacht – we're here to unite ball sport players around the world and create more opportunities for everyone to play.

Welcome to the REBOlution.

USED BY PROFESSIONAL PLAYERS, BACKED BY LEADING COACHES

"I truly believe every club up and down the country should have a REBO wall. It's such a great way to not only learn the sport quickly, but also to practice your technique, whatever your level." Leon Smith OBE

1 ***Burn over 500+ calories / hour***
Great for a fun fitness & cardio workout

2 ***Hit over 2000 shots / hour***
Compared to 150/hour during a match & 500/hour using a ball machine

3 ***Realistic ball trajectory***
REBO wall's adjustable angled face creates a realistic 'arc' to the ball – and 100s of drills

4 ***Rebound is consistent***
The flight of the ball is consistent – something even the best hitting partner can't achieve!

5 ***Practice footwork and every shot***
Groundstrokes, volleys, half-volleys, serves and ball control can all be practiced easily. Ideal for rehabilitation and coming back from injury.

Why choose a REBO wall?

"In all my years in tennis, there is no other method that I found that allows you to work on your technique in a more consistent, deliberate way."

‘Pro’ REBO WALL REVIEWS

Since the installation of the wall nearly a month ago, the feedback from our members has been endless with overwhelming support.

It has encouraged many people to simply go down to the courts on their own. Our coaching team are incorporating the wall into their coaching programs and using it to not only train children to have the ability to consistently hit the ball in one.

We would definitely endorse any tennis club to invest in a ‘Pro’ REBO wall as it is truly an asset that will pay dividends long term

Nelson Lawn Tennis Club, NZ

I used to play on hitting walls as a kid and it made me very consistent although the bounce was nothing like what you get compared to REBO wall.
Chairman, Tunbridge Wells Tennis Club

We cannot thank you enough as it has made a huge difference to the club and is such asset for both juniors and adults to practice their killer shots!
Thistle Tennis Club

We love that we can change the angle of the wall. It’s a great coaching aid, fantastic for fun games and of course, perfect for a quiet hit on your own to get fit! The team at REBO could not have been more helpful and the installation crew did a first-class job.
The Avenue Tennis Club

I found the REBO wall great for working with performance level juniors. The wall worked well in getting across the importance of realising how too much power disrupt control. An excellent teaching aid particularly good for developing reactions for high level net play e.g. half volleys with an angle to them. Standing close to the player allowed me to communicate with them easily and observe technique closely.
Junior Performance Coach

I play tennis competitively. Having the REBO wall at the club has allowed me to improve and perfect my technique I can already see a huge improvement in my game.
